Vision Day

The Leader in Me

We only get one chance to prepare our students for a future that none of us can possibly predict. What are we going to do with that one chance? *The Leader in Me* process helps develop the essential life skills and characteristics students need in order to thrive in the 21st century.

The Leader in Me process is designed to be integrated into an elementary school's core curriculum and everyday language so that it isn't "one more thing" teachers and administrators have to do. It becomes part of the culture, gaining momentum and producing improved results year after year, benefiting schools and students in the following ways:

- Develops students who have the skills and self-confidence to succeed as leaders in the 21st century.
- Decreases discipline referrals.
- Teaches and develops character and leadership through core curriculum.
- Raises levels of accountability and engagement among both parents and staff.
