

Volunteer Opportunities/Ideas

* For opportunities to help, check with the various clubs/organizations at Bush since they normally participate or sponsor activities throughout the year.

PALS, NJHS, Student Council etc..

* Natural disasters (hurricanes, tornados..) destroy homes across the country each year . Every year natural disasters leave many families with damaged homes, or even worse, homeless.

Collect school supplies during the summer and create Back to School kits for children in communities impacted by disasters. Or collect and send clothes, books and furniture. For information on how to donate to affected communities, visit www.saredcross.org.

* For opportunities to help in your city/community, we've listed a few websites. Most organizations/groups require a parent/guardian to attend with a student/youth, therefore, we recommend you and your parents contact these groups directly for more information & details.
