

North East Independent School District Construction Management and Engineering Department

New Team Members

Delfino E. Villarreal, Jr., a Registered Professional Civil Engineer and Registered Professional Land Surveyor. Recently he was the Construction and Facilities Manager for Randolph Field ISD, and has extensive engineering, design, contracts and management experience. He spent 30 years working for the U.S. Navy as a Civil Engineer, Project Manager and Planner being the Engineering Director for the Public Works Department at the Naval Air Station at Kingsville, Texas, Head of Facilities Planning and Programming for the Chief of Naval Air Training Command at the Naval Air Station, Corpus Christi, Texas, and Project Manager for the Officer In Charge of Construction Office in Madrid Spain. Mr. Villarreal is originally from Falfurrias, Brooks County, Texas and is a graduate from Texas A&M, College Station, Texas. He started his engineering career as a Civil Engineering Officer, project inspector, engineer, planner, and facilities operator at Laredo, AFB, Texas. Delfino is married to Mary Helen and they have four children and five grandchildren. Delfino will assist the Planning and Design Department in overseeing the production of Contract Documents and master planning future bond programs.

Elliott Gurwitz is originally from Bastrop, Texas and is a graduate from the University of Texas at Austin. He moved to San Antonio in 1988 and began working at Southern Music Company where he later became their computer and Web Specialist. In 1997, he opened Eager Web Services where he offered web design, hosting and programming services, and collaborated with clients to create websites specific to their business needs. Recently he has done contract work for North East ISD to create the current Construction Management & Engineering Department website. Elliott is married to Emily Gurwitz, a teacher in NEISD. They have two children, Ethan and Zoe. Elliott will serve as the Department's Web Specialist.
