

Assessments are performed at age **two years, ten months**.

Make an appointment to bring your child to the location listed below. Your child will need to be registered in NEISD prior to assessment. You may register on line at:

[www.neisd.net](http://www.neisd.net).

1. Under **PARENT LINK** click *Online Registration*. If you have access to NEISD's parent portal you need to enroll through NEISD's webpage **PARENT LINK not** the parent portal. You will use your parent portal sign-in.

If you do not have access to the parent portal click on the parent registration link on the left side of the screen.

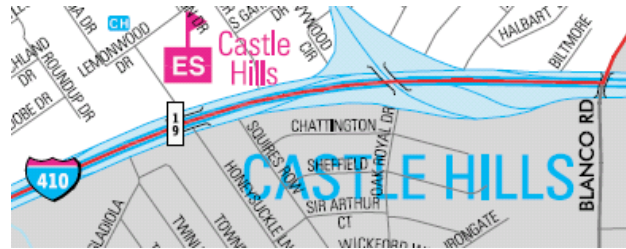

2. Complete the parent registration form, create your username and password, and click on the "register and sign in now" link.
3. Complete the "My Students" page and click on the "Register New Student" link to begin the registration process

Castle Hills Elementary  
Preschool Assessment Center  
200 Lemonwood  
407-1845

## What does North East ISD have to offer?

There is a full continuum of service in North East ISD if your child qualifies for special education.

Educational programming is addressed through an Admission Review Dismissal (ARD) Committee meeting, which individualizes services to the child's specific needs.

This committee decision is based on quantitative & qualitative information from the parent and school staff.

If your child meets eligibility for Speech Therapy the following services may be offered:

- Campus based Speech Therapy at your elementary school
- Listening, Expressing, & Articulating Preschoolers (**L.E.A.P.**) Two hour sessions twice a week at one of our **L.E.A.P.** Locations.
- Preschool for Children with Disabilities (PPCD) ranging from partial pull-out to full day inclusion in a special education classroom.

*Oral Motor Awareness*

**L.E.A.P.** is a preschool speech therapy service for children displaying a deficit in the areas of articulation, phonology and / or expressive language. Instruction occurs in the naturalistic setting of a preschool classroom with developmentally appropriate play centers.

## Description of the **L.E.A.P.** Classroom

A speech/language pathologist teaches the **L.E.A.P.** class. A literacy-based approach to instruction allows global remediation of speech errors in context.

## **L.E.A.P.** Activities

- Center time
- Auditory Bombardment
- Circle/Story Time
- Arts / Crafts
- Music / Movement
- Snack
- Individual Instruction
- Oral Motor awareness
