UTSA Community Connection, events weekly:
<http://community.utsa.edu/>

San Antonio Natural Areas, events for all the parks and wildlife areas; events open to Middle and High School students:
<http://www.sanaturalareas.org/index.html>

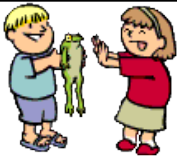

Get Organized

One very practical way to help your child succeed in school is by helping them stay organized.

Help them organize their backpack, folders, notebook & agenda/planner.

Important Study Routines:

- ♦ quiet location at home that is your child's "place to study"
- ♦ small snack and 15 minute break before studying
- ♦ any materials they need, i.e. books, paper, pencils, etc.

Helpful Homework Sites

Kahn Academy:
<http://www.khanacademy.org/>

Brightstorm:
<http://www.brightstorm.com/>

San Antonio Public Library
<http://mysapl.org/>

Vocabulary, Vocabulary, Vocabulary!

Science is a subject that has words that are not commonly used. The more you study vocabulary, the easier it will be for you to keep up with what you are learning in class. Make flash cards for every new word you learn in Science!

Communication

Tips: communicate regularly via teacher web pages, email, parent conferences or phone calls, and monitor Grade Speed.

Middle Schools:

Garner: 805-5100
Krueger: 650-1350
Nimitz: 442-0450
White: 650-1300

High Schools:

Lee: 442-0300
Roosevelt: 356-2200

Science at Home

There are a lot of fun ways to integrate Science in your everyday family life. Here are a few resources you have around the house:

- ♦ TV—listen for Science news, watch Science and nature programs
- ♦ Newspaper—everyday there are articles that are Science worthy: earthquakes, new discoveries, health issues, etc
- ♦ Websites: try these for family Science ideas:
