

NEISD SCHOOL NUTRITION SERVICES RECOGNIZED BY HEALTHIERUS SCHOOL CHALLENGE

HUSSC is a voluntary initiative established in 2004 to recognize schools participating in the National School Lunch Program that have created healthier school environments through promotion of nutrition and physical activity. Their goal is to improve the children's health by promoting healthier school environments. To help meet the goal, the Food and Nutrition Service program identifies schools that have made changes to:

- › improve the quality of the foods served,
- › provide students with nutrition education, and
- › provide students with physical education and opportunities for physical activity.

Submission materials for the Challenge included documentation of foods served, district recipes, lesson plans, wellness activities, and more.
