## SECONDARY STORY HEADLINE

An entire semester of school has already flown by. Amidst the binder checks, Cornell-notes, time management, and organization skills, we were able to become a family through team-building, and collaborative learning tutorials. We're very proud of this group of young

men and women. Taking AP and even Pre-Ap classes is not easy, but they have truly stepped up to the plate.

As one of the componets of this curse, we plan on visiting one university this semester. Last semester Sam Houston State University's traveling "Go

Center" visited Lee High School. While on board, our students did some "career cruising" online in addition to learning about the university.
