

# Junior Newsletter #4

## **Student Assistance for Education (SAFE)**

The CPS Energy Student Assistance for Education (SAFE) Program is designed to promote higher education for professional careers in public utilities by:

- generating interest in the math, engineering, computer information systems and business related fields at the high school level
- providing college financial assistance through a \$5,000 scholarship
- providing personal development through mentoring
- providing hands-on learning experiences through paid summer employment at the completion of the student's junior and senior year

Student selection for participation in the CPS Energy SAFE program is based upon the student's application, interview, references and their ability to meet all criteria outlined in the program participation checklist. Students interested in participating in the CPS Energy SAFE program should contact apply online.

**Application deadline for the 2012 SAFE Program is March 23, 2012.**

Please go to [www.CPSEnergy.com](http://www.CPSEnergy.com) keyword SAFE for application information.
