FROM: Tyler Shoemith, M.Ed., Interim Director, Family Support Services and Dropout
Prevention/Retention Coordinator 

SUBJECT: After Hours Credit Recovery Opportunity

Any student that is currently enrolled in the Teen Parenting Program or is classified as Homeless through the McKinney-Vento Project are eligible to attend credit recovery sessions offered in the evening/weekend at the Family Resource Center. In addition to credit recovery, they are eligible to attend TAKS tutorial sessions. Students who are enrolled in either or both programs may attend **free of charge**.

The tutorial sessions are located at the computer lab in the Family Resource Center building, **8438 Ahern Dr., San Antonio, TX, 78216** (behind North Star Mall on the same property as the Alternative Middle and High Schools). Sessions are overseen by Marla Stiefvater, a certified teacher, trained PLATO instructor and a participant in the District-wide Achieve Program. Spaces are limited to students that attend regularly. Students interested in attending are encouraged to schedule sessions at least one week in advance. The days that are currently available vary on an as-needed basis and will be scheduled to fit most students' needs to include two nights during the school week and Saturday mornings.

Any counselor, teacher or administrator may refer an eligible student to Marla Stiefvater for consideration as the only requirement is that they are seeking credit recovery or TAKS remediation. Once students are admitted into the program, the student, and parent/guardian must sign a credit recovery contract.

Please feel free to call Marla Stiefvater at 442-0640 ext. 278 with questions about any student's eligibility and other concerns you may have or to refer a student.
