CURRICULUM GUIDES

The Superintendent or the Superintendent's designee shall be charged with the development and revision of necessary publications (curriculum guides, manuals, or teacher handbooks) as shall be needed for the efficient development and improvement of all programs and activities within the district. Committees composed of classroom teachers and the appropriate district level program coordinator shall develop all necessary documents and support materials. Review shall occur on a regular basis and, at a minimum, shall usually coincide with a state textbook adoption.
