

# JumpStart: Doorway and NEISD VPN

The majority of staff NEISD business can be conducted via the Intranet website. The Intranet can be accessed by logging into the Doorway to NEISD. Full access is provided to a staff member that needs access to desktop applications (Mainframe, Dreamweaver, etc) and/or Novell file shares.

## Log into the Doorway to NEISD VPN

Open your browser. Navigate to <https://doorway.neisd.net>. You will be presented with a Pre Sign-In Notification screen.

Click the **Proceed** button. The Login screen will appear. Enter your credentials to sign in. You are now connected and should be on the Intranet website.

To exit, close all browser windows.

## Log into the Full Access NEISD VPN

Open your browser. Navigate to <https://neisdvpn.neisd.net>. You will be presented with a Pre Sign-In Notification screen.

Click the **Proceed** button. You will be presented with the login screen. Enter your credentials, and sign in. The plug-in will download and install automatically the first time.

After plug in installs you will be presented with the Welcome screen.

*Note: The golden lock in the system tray. You are now connected...*

## Accessing Novell File Shares

*NOTE: These shares can only be accessed via an NEISD device that has been configured with the Novell client.*

To connect to Novell file shares, please right click the Novell N in the system tray and choose Novell Login.

Enter your Novell login credentials.

## Logging off the VPN

Disconnect your session by right clicking on the golden lock in the system tray. Select **Exit**. The lock will disappear. You are now disconnected.
