

Health Care Expense Worksheet

Instructions

This worksheet is for estimating annual health care expenses only.

1. Enter your annual cost for each health care option you use.
 2. Add up the Total Annual Health Care Expense.
 3. Divide the Total Annual Expense by the number of pay periods to calculate the amount needed to be withheld every pay period.
 4. For any questions about the FSA benefit or the amount to select, please call the Employee Benefits Office at 407-0187.
