Coordinating Accelerated Instruction and Response to Intervention with Specialized Federal Programs

**Students Struggling Academically and/or Behaviorally**

- **Student without Identified Supports**
  - STAAR FAILURE
  - PK-12 Struggling Student / met standard for STAAR/EOC

- **Student Protected Under Section 504**
  - STAAR FAILURE
  - PK-12 Struggling Student / met standard for STAAR/EOC

- **Student with an IEP Supported by Special Education**
  - STAAR FAILURE
  - PK-12 Struggling Student / met standard for STAAR/EOC

- **Student is an English Language Learner**
  - STAAR FAILURE
  - PK-12 Struggling Student / met standard for STAAR/EOC

**Tier 1: Core Instruction + Differentiated Instructional Strategies**

Create an Accelerated Instruction Plan (AIP) in AWARE

- When student does not make adequate progress through the AIP, begin the RtI Tier 2 process; Document in the RtI Document Management System

- Document in the student’s IEP; attach the AIP in Frontline

- AIP committee reviews IEP and makes changes as appropriate

- Document in the student’s LPAC

- Document linguistic accommodations and progress through LPAC

At the next Annual or Review meeting, document the RtI interventions and progress as a part of the evaluation.

**NOTE**: 504 plan only designates disability-related accommodations. RtI accommodations must be designated in the RtI documentation management system.

Students who do not adequately respond to interventions and data indicates that the general education interventions are not sufficient for the student to demonstrate progress, and school personnel suspect that the student has a disability, require the initiation of a referral for a Full and Individual Evaluation under IDEA to determine if the student is eligible for specially designed instruction.

LPAC Considerations:
- Number of years in US Schools
- 2nd Language acquisition
- History of formal education
- L1 (native language) proficiency
- TELPAS across all domains

Begin the RtI Tier 2 process; Document in the RtI Document Management System

Created through collaboration among Curriculum & Instruction, Learning Support Services, Special Education, Section 504, and Student Leadership and Well-Being. 01/14/2020 revised.
