IMPORTANT INFORMATION FOR ALL CURRENT SIXTH GRADE STUDENTS (7TH GRADE STUDENTS FOR 2019-2020)

According to state immunization requirements, **current 6th grade students (2018-2019) who will be in the 7th grade next school year (2019-2020) must have the following immunizations to start school:**

Tetanus/diphtheria/pertussis containing vaccine

- One booster dose if at least 5 years have passed since the last tetanus-containing vaccine was received

Meningococcal vaccine

- One dose of meningococcal vaccine

Please submit all official documentation of immunizations or exemptions to the school nurse as soon as possible. All required immunizations must be completed and all students must have current immunization records on file with the school nurse on or before August 19, 2019 in order to attend school. It is very important to have the immunizations turned in to the school nurse as early as possible in order to facilitate entering and processing all records.

******If your child receives immunizations over spring break, please send the record to school as soon as possible. ****You may check the NEISD parent portal to inquire whether your child has already met the above requirements for entering 7th grade.**

Make an appointment with your physician NOW to avoid the rush this summer!

*******For questions, contact Bradley clinic at 210-356-2603. You may fax updated shot records to 210-491-8313 or email them to jpilge@neisd.net or tgary@neisd.net *******
