Opportunities for High School Students to Earn Credit Outside the Regular School Day

North East ISD provides opportunities for acceleration and/or remediation:

- Summer School at a Texas Public School
- Credit Recovery at an NEISD high school
- NEISD Evening High School
- Correspondence courses through Texas Tech University or The University of Texas at Austin Online institutions (EHDE LEGAL)
 - Correspondence Agreement must be completed with the student's counselor prior to enrolling in a course

Students wishing to earn credits outside NEISD must begin the process with the student's high school counselor. Courses taken outside NEISD without a counselor's approval may result in the district not accepting the credits or cause potential harm to a student athlete's NCAA eligibility.

It is imperative to consult with the student's counselor before enrolling/registering a student for any course work outside of the regular school day.

Please contact the student's high school counselor for additional information.
