

Student Agreement for Acceptable Use of the District Electronic Communications System

The purpose of this document is to set forth the policies governing the use of all District technology resources by students while on or near school property, in school vehicles and at school-sponsored activities on- or off-campus, as well as the use of all District technology resources *via* off-campus remote access.

Please read the following Acceptable Use Policy carefully before signing your registration packet. The District reserves the right to modify the terms and conditions of this document at any time. The latest version of this document is available online at <https://www.neisd.net/aup>

Á

Introduction

NEISD is pleased to offer students access to District computers, communications systems¹, the Internet and a wide array of other technology resources to promote educational excellence and enhance the classroom experience. Technology can expand a student's access to educational materials, prepare students by providing workforce skills and college readiness, and lead to personal growth. The District recognizes, however, that access to technology must be given with clear guidelines, expectations, and supervision to protect students. This policy is designed to make parents/guardians, teachers and administrators partners to teach students how to be responsible users of technology.

The school district will educate all students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response.

The District will hold ALL students responsible for their use of technology, whether District- provided or personal, and they are expected to act in an appropriate manner in accordance with campus procedures, District policy and procedures, and legal requirements. This applies to the use of all District technology resources by students while on or near school property, in school vehicles and at school-sponsored activities on- or off-campus, as well as the use of all District technology resources *via* off-campus remote access.

This Policy shall be used in conjunction with NEISD Board Policy FNCE (Legal) and (Local), which deals with Student Rights and Responsibilities, and the Student Code of Conduct adopted by the Board and found in the Student/Parent Handbook.

-

¹ "Communication systems" as used throughout this Policy include educational-related communications between and among the District and students by e-mail, web sites, cell phones, pagers, text messaging, instant messaging, blogging, podcasting, listservs, and/or other emerging technologies.

Using the Internet and Communications Systems

The District provides technology resources to students for the express purposes of conducting research, completing assignments, and communicating to the faculty, staff, and others to complement their educational experience. Just as students must demonstrate proper behavior in a classroom or school hallway, they must also behave appropriately when using any District computer networks, personal electronic devices, personal device data plans, software or websites sanctioned or used by the District, and any personal technology used in an educational setting. Access to the District's technology is a privilege, not a right. Students must comply with all District standards set forth in this Policy at all times in order to maintain the privilege of using its technology resources.

Students and their parents/guardians are advised that any information stored on and/or sent through the District's technology resources is the property of the District. Accordingly, in connection with ensuring student safety, District network administrators and/or other appropriate personnel will engage in periodic reviews and searches of stored files and communications stored on District technology resources to maintain system integrity and ensure that students are complying with this Policy and using technology in a responsible and appropriate manner. Such reviews will include students' use District-approved educational websites or software to ensure that they are using it in an appropriate manner consistent with the District's expectations for such use. Students do not have a reasonable expectation of privacy over any information stored on District technology.

At certain campuses, the District may allow students to bring personal technology devices (i.e., tablets, e-readers, smartphones) for use during the school day for authorized curricular purposes. Students that use personal technology devices will be required to comply with all aspects of the Acceptable Use Policy and/or Student Code of Conduct in the use of such devices at school. A student's personal technology device may be subject to search by campus administrators in connection with determining if a student has committed a violation of this Policy and/or the Student Code of Conduct.

The District remains committed to integrating technology to enhance its curriculum for students, which it believes increases students' educational experience for them and allows for better preparation for job skills and college success. Access to the Internet enables students to use extensive online libraries, databases and websites selected by the District for use in instruction.

Although the District strives to ensure that any Internet access avoids any inappropriate material, students and their families should be aware that some material accessible on the Internet may contain information that is inaccurate, profane, sexually oriented, defamatory and potentially offensive to some. The District does not condone any student accessing, or attempting to access, such material, and it remains deeply committed to safe Internet use. The District takes steps to minimize students' opportunities to do so, including the implementation of extensive content-filtering software. This software is not fail-safe, however, and while at school the District strives to ensure that students' Internet use is supervised, it is possible that the software may miss some content, or students

may find a way around the software to access inappropriate material. For this reason, this Policy is strictly enforced, and students who misuse any District technology outside its intended purpose, including the use of District-recommended websites for purposes outside the educational intent, will be in violation of this Policy, which may lead to disciplinary consequences for the student.

With this in mind, the District still believes that the benefits of allowing student access to the Internet to enhance the educational experience outweighs any potential harm to students.

Proper and Acceptable Use of All Technology Resources

The District requires students to use all technology resources, including any websites or software used in the classroom, in a manner consistent with the following rules. The District will hold students responsible for any intentional misuse of its technology resources, or any other failure to comply with the rules in this Policy. When using District technology systems outside the school, parents/guardians should strive to ensure that students do so in compliance with the rules set forth in this Policy, as the District is unable to supervise students' technology use at home. The District's content-filtering software will not work in a student's home, so parents/guardians are encouraged to place content-filtering software on their home computers or take any other steps necessary to monitor students' Internet usage at home.

Students, who unintentionally access inappropriate material in connection with their use of any District technology, including websites and software used in the classroom, shall immediately stop accessing the material and report it to a supervising adult. The District shall take immediate steps to ensure such material is blocked from further view at school by its content-filtering software.

All District technology resources, including but not limited to District computers, communications systems and the Internet, including any websites or software used in the classroom, must be used in support of education and academic research and in accordance with the rules set forth in this Policy.

Activities that are permitted and encouraged include the following:

- School work and assignments;
- Original creation and presentation of academic work;
- Research on topics being discussed in classes at school;
- Research for opportunities outside of school related to community service, employment or further education;
- Reporting inappropriate content or harassing conduct to an adult;

Activities that are barred and subject to potential disciplinary action and loss of privileges, whether on a District-provided or personal electronic device, include the following:

- Using District or personal technology during the administration of state standardized testing, End of Course, and or final examinations unless expressly allowed to do so by a classroom teacher;
- Using technology for plagiarism or otherwise representing the work of others as the student's own;
- Presenting any copyrighted, registered, or trademarked work as that of the student;
- Using obscene or profane language on any District technology resource, to include posting such language on any website or software used by the District;
- Engaging in harassing, insulting, ostracizing, intimidating, or any other online conduct which could be considered bullying while using any District technology resource, to include the use of any website or software used by the District;
- Searching, viewing, communicating, publishing, downloading, storing, or retrieving any inappropriate or offensive material, or any material that is not related to the permitted activities set forth above;
- Using a website or software program implemented by the District in a manner outside the scope of the use specified by the classroom teacher, coach or administrator;
- Engaging in any conduct that damages or modifies, or is intended to damage or modify, any District equipment, network, stored computer file, or software, to include any conduct that results in a person's time to take any corrective action;
- Intentional or neglectful transmission or direct placement of computer viruses or other unauthorized programs onto District equipment, networks, stored computer files, or software;
- Attempting unauthorized access, or "hacking," of District computers or networks, or any attempts to bypass Internet content-filtering software used by the District;
- Using USB, bootable CD's, or other devices to alter the function of any District technology equipment, network or software;
- Sharing online any personal information of another student or staff member, including name, home address, or phone number;
- Using any District technology for games, role-playing multi-user environments, gambling, junk mail, chain mail, jokes or fundraising activities without prior approval by a classroom teacher, coach or administrator;
- Participating in online chat rooms or using instant and/or text messaging without prior approval by a classroom teacher, coach or administrator;
- Using any District technology resources for any commercial and/or for-profit purpose, to include personal financial gain or fraud;
- Personal electronic devices may be subject to search in accordance with the Student Acceptable Use policy and Student Code of Conduct;
- Using any District technology resource to engage in any activity that violates any NEISD Board Policy, the Student Code of Conduct, campus rule, local, state, and/or federal law.

Students shall immediately report any violations of this Policy to a classroom teacher or administrator. If any student or parent/guardian has any question about whether any activity may be a violation of this Policy, they should ask a classroom teacher, coach or administrator.

Privacy and Security

Students are expected to use District technology resources responsibly and in a safe and secure manner, regardless of whether such technology is accessed using a District-issued or personal electronic device. Students shall not share their individual logins, passwords, or access to District technology with others without the prior approval of a classroom teacher, coach or administrator. Students shall sign off or log off all District equipment, software, or Internet sites once they are done with their session in order to protect the integrity of their logins, passwords or access.

Consequences for Violations of this Policy

Students shall be subject to disciplinary action as deemed appropriate by the Superintendent or designee for a violation of this Policy, depending on the severity of the violation. Such consequences may include, but are not limited to, suspension, removal to an alternative education setting, and/or expulsion. In addition, a student’s privileges to use District technology resources may be restricted or revoked. The District may undertake appropriate investigations any potential violation of this Policy by a student, and may take action based upon the preponderance of the evidence revealed by such investigation.

In addition to this Policy, individual schools may implement additional rules and regulations pertaining to the use of District and/or personal technology resources within their respective campuses. A school may hold any personal technology belonging to a student, subject to the applicable District and/or campus policies and procedures, in the event the student uses the technology inappropriately in violation of this Policy or of applicable campus rules.

Students who violate this Policy may also be subject to potential violations of local, state, and federal law, depending on the conduct involved.

Limitation of Liability

The District makes no warranties of any kind, whether express or implied, for the technology resources it provides to students through District provided and/or a student's personal electronic device. NEISD is not responsible for any damages that a student may sustain, including those arising from non-delivery of information, erroneous delivery of information, service interruptions, unauthorized use by a student, loss of data, and any potential exposure to inappropriate material from the Internet. Use of any information obtained through the Internet is at the student’s own risk, as the District makes no representations, and denies responsibility for, the accuracy or quality of the information. In exchange for being allowed to use District technology resources, students and their parents/guardians hereby release NEISD, its trustees, employees, and representatives from any and all claims for damages that arise from the intentional or neglectful misuse of the District’s technology resources by the student.
