

Second Grade Tic-Tac-Toe

Due: 3-20-20

Science

Natural resources are items that can be found in nature.
Manmade resources are materials people make.

Make a list of 10 natural and 10 manmade resources and draw pictures to match.

Log in on one of these links above for a **minimum of 15 minutes a day.**

Math

Solve this problem:
Sam made cupcakes to sell at the bake sale. He made 156 chocolate cupcakes and 128 vanilla cupcakes. After the sale, he had 48 cupcakes left over. How many cupcakes did he sell?

Reading

Read a fiction story and identify the following elements:

- characters
- setting(s)
- problem
- solution

Then write about your favorite part of the story and illustrate a picture.

Writing

Write a personal narrative of **what happened over spring break!**

You could write about a trip, a visit with family, or just going to the movies. Make sure you have details that explain when, where, who, why and how you spent your break.

ABC Order

Write your new Words of the Week in **ABC order.**

action, motion, fiction, addition, mansion, tension, purple, table, circle, turtle

Then use each word in a sentence. Check for capitalization & punctuation marks!

Science, Technology and Research

Think of an object in your home. Research and create a PowerPoint on how that object was made. Which natural resources are in the man-made object you are describing?

Math

Create 5 three-digit subtraction problems with regrouping and solve using the algorithm. Make sure you double check your work!

**Remember, the algorithm means you stack the numbers by place value and solve.

Final Stable Syllables

Use the words below to practice splitting words into syllables:

**election television
scramble double stable
addition triple caution
tradition invasion**

Remember that **tion** and **sion** are their own syllable.

Starting in the middle, choose any assignments to make **3** in a row. Be sure all work is done in your Homework Spiral provided. Turn in all homework on **Friday morning**. Have fun!
